

Ryan & JJ working on the model:

Ryan: Choose Spot; need to establish what happens when user chooses a cell.

Ryan: Blank spots & #'s (ask JJ)

JJ: Filling the Array

JJ:

Steph: write array

Steph: Draw the board & display the board

Sabrina: working with Steph

Sabrina: working on Console writelines

We are using JJ's standard user input so we do not have to write that portion

To do: generate win/lose

To do: present solution
